Theo

Having two main shapes for the surface, a circle and an oval, the Theo series brings five possibilities of dimensional variety. Rich in both visual appeal and versatility, this design by Alp Nuhoğlu is introduced among coffee tables presenting storage and display functions. Theo coffee table series offers flawless options with five different alternatives to suit the scale and style of interiors.

Indoor

Tabletops are available in laminate, lacquer, natural veneer, Fenix, or Neolith finishes. In addition, a version combining two different materials is available: the lower surface can be produced in glass, while the upper surface can be selected in natural veneer, marble, or Neolith. This material combination brings a refined elegance, making Theo an ideal choice for high-end interiors.
